DOUBLE-SIDED ADHESIVE TAPE DISPENSER

ABSTRACT OF THE DISCLOSURE

A double-sided adhesive tape dispenser includes of a main frame for mounting a rotatable adhesive tape roll thereon, a guide roller rotatably mounted on the main frame, and a driven roller rotatably mounted on the main frame. The driven roller is parallel to the guide roller and has an outer surface contacting an outer surface of the guide roller such that the driven roller is driven to roll by the guide roller.
